# Muhammad Alfarozi

BACKEND DEVELOPER

I'm a web developer who is passionate about Cyber Security, Web Technology, and open source. I'm very interested in learning about the best methods for application development. I've knowledge of Frontend developer and DevOps. but I'm specifically focus on backend developers as the Laravel framework and Go lang.

## EDUCATION

**Universitas Pasundan** — Sep 2021 - Present

Teknik Informatika

## EXPERIENCES

**PT Global Inovasi Siber Indonesia** - Backend Developer

Bandung, Jawa Barat

I started working part time in February 2023 as a backend developer. I developed a website with laravel api and optimized some aplication source code.

**Bait Solution** - Freelancer

Pasaman, Sumatra Barat

I started my first freelance project with Bait Solution in september 2021, I worked on several Laravel projects to develop an amazing website.

**Comunity PasamanDev** - Member

Pasaman, Sumatra Barat

Pasaman Dev is a developer community located in Pasaman, West Sumatra. With this community, I learned many things about web developers.
